

## Vista Packing & Conveying Solutions

— Your Partner In Packing Excellence —

AN ISO 9001:2015 CERTIFIED COMPANY

**24\*7 Online Service Available  
Within 1 Days Engineer Availability**

## Introduction

Welcome to Vista packing and conveying solutions, your trusted partner in cutting edge manufacturing. As industry leaders in design and production of state of the art packing machine, weighing and bagging machine with fully automatic micro processor based controller, belt conveyors, stitching machine, sealing machine, slide gates,divertor valve and blower

With vista you are not just getting machinery, you are gaining a competitive edge and promise of superior quality and performance in every product we offer. Join us in shaping the future of packing and conveying solutions

**Inclined Conveyor**

**Roller conveyor**

**Storage Hopper**

**Vacuum Loader**

## Gross Weighing Machine

- **Model-VP-GWP**
- **Gross weighing machine is used to pack open mouth bags for polymer, master batch, fertilizer, pulses , grains, free flow powder Packing size- 5- 50 kg bags**
- **Packing speed- up to 3 ton per hour**
- **Different feeding device are available – gravity feeding, belt conveyor, screw conveyor**

## Gross Weighing Machine With Screw Feeder

- Model- vp-Gwp-sf
- Gross Weighing Machine With Screw Feeder Is Used To Open Mouth Bags For Hazardous And Hygienic Material, Chemical Powder, Moisture Contain Powder.
- Packing size-5 – 50 kg bags
- Packing speed – upto 3 ton per hour
- Different Feeding Device Are Available- Belt Feeder , Single And Double Screw

## Net Weighing/combo Weighing Machine

- Model- VP-NWP / VP-CWP
- Net weighing and Combo weighing machine is used for pack open mouth and jumbo bags for Polymer, master batch, Grain, pulses and free flow powder.
- Packing Size- 5-50 kg and 500-1000 kg jumbo bags
- Different feeding device available like Gravity feeding , belt feeder, screw conveyor

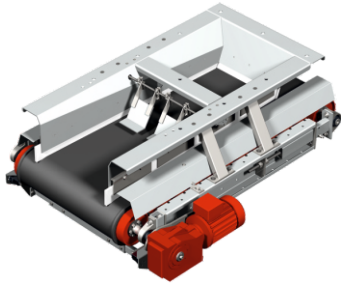

## Jumbo Weighing Machine

- Model-VP-JWP
- Jumbo Weighing Machine Is Used For Packing Jumbo Bags For Granules,fertilizer,grain,pulses,free Flow Powder.
- Packing size- 250 to 1000 kg bags
- Packing speed- 5 to 10 tons per hour
- Different feeding device available like gravity feeding, belt feeder,screw conveyor.
